A MASSACRE OF BUTCHERS IN INDIA.—A Lahore paper reports a shocking outbreak of fanaticism at Umrutur, in the Punjab: "For some time the Hindoos have been agitating against the butchers of Umrutur to obtain a decree forbidding the slaughter of cattle and the sale of beef in the city. Their efforts failed chiefly through the firmness of the Commissioner and the strength of the English and Mussulman party in the committee. Early one morning, about 1 or 2 o'clock, a body of armed Hindoos assembled and made a descent upon Umrutur slaughter house and attacked the butchers sleeping outside. The murderers were armed with swords and broad axes, and the butchers, being unarmed and asleep, were unable to save themselves. Four butchers were literally hacked to pieces, and two others were so fearfully cut up that one has since died, and the other's life is despaired of. The night was a very dark one, and it will be difficult to recognize the murderers. Accounts vary as to the sect they belonged to. From some indications found on the scene of the massacre it is suspected that the murderers belong to the Nihang sect. But another account states that the Akalis are suspected. The Akalis are a sort of fanatic Sikhs, a semi-sacerdotal class attached to the temples. They are the truculent-looking fellows who wear conical hats, about a yard high, covered with small bells, and those steel clunkers on sharp rings which they can hurl with terrible precision and effect. They are respected and considerably feared. The Nihangs are associated with all that is reckless and Bohemian. Their name, indeed, is a common expression in the Punjab to represent these qualities. The affair, as may be anticipated, has caused some excitement, as it is expected that the matter will not end here. Bad passions on both sides have been aroused, and natives are already whispering that other members of the butcher fraternity have been marked out for destruction.

THE BIGGER BAIT BUCKET.—Some thirty or forty years ago, Col. H. Bigger, of this Borough, who is still, at 80, a devoted angler, felt the necessity for some convenient contrivance for carrying and preserving live bait for angling. Putting his wits to work, he succeeded, in devising a very simple plan to attain his object. He had two buckets—one larger than the other. The smaller was thoroughly perforated with small holes, so that the water could pass through freely, and about an inch or two inches less in diameter than the larger bucket. In the larger bucket—whose lid was also perforated to give more air—the water was put, and in the smaller the minnows. Fresh water could be easily supplied whenever necessary without injury to the minnows. When the fishing was over, the smaller or inside bucket, with its living contents, could be sunk in a spring or stream and kept in good condition for weeks or months. We have known them to keep in good order an entire winter, when bait is scarce and hard to get.

It is strange that so simple a contrivance had never before occurred to any angler's brain. A few years ago we met with an Englishman who was a great angler, and showing him one of these buckets, he was astonished and enraptured. In all his rambles over England and Scotland he had never seen anything of the sort, and it supplied a desideratum (he said) which would be dear to all the brethren of the job. He forthwith sent home an assistant to get him one, and the Scotch and English anglers are now upon an equal footing with those of Old Virginia. Within the last few years the reputation of these buckets has spread all over the Union, and the Bigger bucket may now be found in almost every State. But few know to whom they are indebted for the great discovery. —Richmond Whig.

HORRIBLE AFFAIR IN GEORGIA.—A private letter written to a gentleman in Griffin, Georgia, states that a horrible murder was committed in Macon county last Thursday, on the person of a Mr. Joiner, in that county, under the following circumstances:

The widow of a Mr. Devereux married a Mr. Lester, and after his death she had a son, Joiner. By the first husband she had a son, Devereux, who, during her first and second widowhood, attended to business for her. After her marriage to Joiner, he attended to her business. Several notes had been presented to him signed by Devereux, which were paid; but on a recent occasion Mr. Joiner had declined to pay a note of considerable amount, when his wife told him that he must pay it or leave the plantation quickly, and threatened to leave herself if it was not done.

Mr. Joiner replied that he was in no way responsible for the note, and would neither pay it or leave the place, and intended to gather it. The next day Joiner came, and on the return of Mr. Joiner from the field, asked for a private conversation, which was granted to Mr. Joiner repeated his determination not to pay the note, when Mr. Devereux rose up and fired at him. The shot missed, when Mr. Joiner caught him and threw him out of the piazza. Mr. Joiner went to his room to get his pistol from under the head of his bed, but it had been removed. Young Devereux followed him and fired the second shot, which struck Mr. Joiner, and then the third, which killed him.

Mrs. Joiner then gathered up what money she had, gave it to her son, who fled, and is still at large. It is supposed that she will be arrested as accessory to the killing.

HORRIBLE SUICIDE.—[From the San Francisco Bulletin, Aug. 15.]—In this State suicides have been remarkably frequent, and the victims have often resorted to self-destruction, and unusual means for accomplishing self-destruction. On Friday morning a convict of San Quentin, named Francis Smith, sentenced to a term of ten years, climbed to the top of a huge copper vat full of boiling water and then jumped himself backward into it. He was removed from the seething caldron with all possible dispatch, and received medical attendance. He suffered terrible agony for two hours, and then died. Deceased was an Englishman by birth. We are not advised as to the crime for which he was sentenced, but learn that he had three years more to serve. The suicide and its attendant horrors caused a profound sensation among the prisoners. Smith was buried in the prison cemetery, on the high bluff, several hundred yards from the prison wall.

DRUGS AND CHEMICALS.

SIMMONS' LIVER
The symptoms of Liver Complaint are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general constive, sometimes alternating with laxity. The head is troubled with pain, and dull, heavy sensation, considerable loss of memory, accompanied with painful sensation of having left undone something which ought to have been done. Often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease, but the liver is generally the organ most involved. Cure the liver with

DR. SIMMONS' LIVER REGULATOR.
A preparation of roots and herbs, warranted to be strictly vegetable, and can do no injury to any one. It has been used by hundreds, and known for the last 40 years as one of the most reliable, efficacious and harmless preparations ever offered to the suffering. It cures regularly and persistently, it is sure to cure.

Dyspepsia, headache, jaundice, costiveness, sick head-ache, chronic diarrhoea, affections of the bladder, camp, venereal, affections of the kidneys, fever, nervousness, chills, diseases of the skin, impurity of the blood, melancholy, or depression of spirits, heartburn, colic, or pains in the bowels, pain in the head, fever and ague, dropsy, boils, pain in the back, &c. THE FOLLOWING WILL BE READ WITH INTEREST:
Under date of April 26th, 1871, Dr. HENRY J. ROGERS, 68 Sharp street, Baltimore, an eminent physician, writes regarding

CRYSTAL DISCOVERY:
"It affords me much pleasure to bear testimony as to the efficacy of your Crystal Discovery. Some years since, while in India, I suffered from a severe fever peculiar to the country. On my recovering, a patch of hair on the left side of my head became perfectly white, without at all affecting the remainder. To remove this unsightly appearance, I had recourse to various preparations, both in Europe and in this country; but they all had one great defect—they dyed the hair black. Now, with your Crystal Discovery, I can get the desired shade—the natural color of my hair being dark brown. I consider your Discovery the best preparation I know of."

Yours truly, **HENRY J. ROGERS.**
Now as the fact becomes more patent every day that the various dirty and filthy preparations advertised as Renewers, Restoratives, &c., are but compounds of Sugar of Lead and Sulphur, and therefore should be shunned by all who value their health, it is scarcely a matter of surprise that the demand for NATTAN'S CRYSTAL DISCOVERY, admitted to be perfectly harmless, and yet accomplish all, and more, than the poisonous articles claim to do, should have increased so rapidly. It restores the color and growth of the hair positively in a few days; strengthens the roots, makes an excellent dressing, soiling neither clothes nor scalp; but on the contrary it gives the scalp a pure and clean look, removing all dandruff and scurf. It is the most economical preparation in use. Put up in large bottles, at one dollar.

The next day Young Devereux came, and on the return of Mr. Joiner from the field, asked for a private conversation, which was granted to Mr. Joiner repeated his determination not to pay the note, when Mr. Devereux rose up and fired at him. The shot missed, when Mr. Joiner caught him and threw him out of the piazza. Mr. Joiner went to his room to get his pistol from under the head of his bed, but it had been removed. Young Devereux followed him and fired the second shot, which struck Mr. Joiner, and then the third, which killed him.

SEWING MACHINES.

HOWE'S
IMPROVED
Lock-Stitch Sewing Machines

Are world-renowned for durability and simplicity of machinery, the perfection of the tension, and the unparalleled wide range of work they are capable of performing without change or readjustment. At the great "Exposition Universelle" in Paris, in 1867, they were awarded the highest prize—a massive Gold Medal—over 82 competitors, and the Grand Cross of the Legion of Honor was conferred on Elias Howe as the original inventor of the Sewing Machine.

The growing appreciation of their characteristic excellence by the intelligent people of this country was clearly shown by the unprecedented sales of the Howe Sewing Machine during the past year, being far in excess of those of any other one patent. More than 1000 of these excellent machines are in daily use in the cities of Washington and Georgetown, and of this very large number a single case of dissatisfaction cannot be found. They make the "Howe," or "Lock-Stitch," which has the same beautiful appearance on either side of the fabric sewed, and they are the only machines that make this beautiful stitch to perfection.

A branch office has been recently established at No. 105, King street. If you are prejudiced in favor of any particular machine, at least examine the Howe before you purchase. Remember that Mr. Howe was the original inventor of the Sewing Machine, and gave twenty years of his life to perfecting this machine. Every Howe Machine is warranted for ten years' constant use by the company, and is kept always in perfect order by the local agency. Purchasers are thoroughly instructed at their residences, by competent instructors, in every variety of plain and ornamental sewing. An efficient lady operator will be in constant attendance at the office, and machine stitching of every description will be neatly and promptly executed. **J. KARR, General Agent,** 629 Pa. av., Washington, D. C., and 105 King st., Alexandria, Va. **E. S. FLEMING, Manager Alex.** aug 12-10

THE SINGER FAMILY SEWING MACHINE.
The best machine now claiming public attention. Eight thousand dollars (\$8,000) worth sold in the last fifteen months. Over one hundred are now in use in this city, and they have given universal satisfaction. Call and see them at work, where their merits will be explained without any discourteous allusions to other machines or their agents. Instructions given at residences free of charge. **C. C. BERRY, Agent,** 72 King street.

Machines sold on monthly payments, and warranted to give satisfaction. One Howe Machine, new and in perfect order, for sale at \$5 less than they can be purchased for at the factory. aug 10

THE BALTIMORE PARLOR QUEEN.
S. B. SEXTON'S New Patent Self-igniting Base-Burning PARLOR FIRE PLACE STOVE. Mr. S. B. Sexton is the original inventor of the Illuminating Baltimore Fire Place Stoves. His several succeeding patents have been improvements, until this last is the superior of them all. It is the most popular Fire Place Stove in beauty of finish, tasteful carving, and in heating power. It is the result of twenty-two years' practical experience in inventing and manufacturing Fire Place Stoves, and combines all the improvements of our former Stoves, with additional improvements made this present season. This Stove is a decided success. Several hundred of them were put up in dwellings during the latter part of the Fall and during the winter, and we have received many testimonials giving them the highest praise for powerful heating capacity and economy in the consumption of fuel.

THE DINING ROOM QUEEN.—We have added a new Fire Place Stove to our list this season. This Stove is suitable for dining rooms, and is very ornamental and would answer for parlors also. It has the convenience of a large oven, which can be used for warming plates, and heating irons, as well as baking and boiling. We also manufacture the **BALTIMORE PARLOR HEATERS,** which are Top-Feeding and Self-Feeding Stoves. They are beautifully finished and of great heating power. For sale, wholesale and retail, by **S. B. SEXTON & CO.,** 111 West Lombard st., Baltimore. For sale in Alexandria by **THOS. HOY.** July 31-30

MEDICAL.

Baltimore Lock Hospital.
DR. JOHNSTON, Physician of this celebrated institution, has discovered the most Certain, Speedy, Pleasant and Effective Remedy in the world for all DISEASES OF IMPURITUDE.

Weakness of the Back or Limbs, Stricture, Affection of the Kidneys or Bladder, Voluntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Trembling, Dimness of Sight, or Giddiness, Disease of the Head, Throat, Nose, Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the songs of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, &c.

YOUNG MEN.
Especially, who have become the Victims of Solitary Vice, and dreadful and destructive habits, which annually sweep to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or walked to extacy the living lyre, may call with full confidence.

MARRIAGE.
Married persons, or Young Men, contemplating marriage, aware of Physical Weakness, (Loss of Potent Power, Impotency, Nervousness, Debility, Palpitation, Organic Weakness, &c., or any other Physical Affection, &c.) should be relieved. He who places himself under the care of Dr. J. may be fully confident in his honor as a gentleman, and a confident reliance upon his skill as a physician.

ORGANIC WEAKNESS.
Immediately cured and Full Vigor Restored. This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of impure habits. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who understands the subject will pretend to deny that the natural powers are lost, sooner by those falling into improper habits than by the prudent. Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened. DR. JOHNSTON
Member of the Royal College of Surgery of London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringings in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended some times with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.
Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, uniting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Derangement of the Mind, Frenzies, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced. Thousands of persons of all ages now judge what is the cause of their declining mental and physical vigor, becoming nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN
Who have injured themselves by a certain practice, have described, in brief, frequently leant, from evil companions or at school, the effects of which are nightly felt, even when asleep, and if
